MAP INDEX

Inset

Out Area

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

1 A false MCD symbol indicates that the place is also a false MCD;

2 In 1990, the crews-of-vessel population of ships at sea was allocated to census tracts. These maps show very small areas symbolized as a census tract with the census tract number shown near the area.

3 A ** following a block number indicates that the block number is repeated elsewhere in the block.

The plotted map scale is 1:32000

All legal boundaries and names are as of January 1, 1990 as tabulated for the Public Law 94-171 and Summary Tape File products. The boundaries also reflect the feature network and coordinates as of the Census 2000 geographic base. Since 1990 the Census Bureau updated the base from the North American Datum of 1983 (NAD27) to the datum as of 1983 (NAD83) and the coordinate system spans the entire continental United States. The boundaries on this map are for the Census Bureau's statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights or ownership or entitlement.
